Edge Protectors

For Large Corners & Loads

Encore's various types of large edge protectors are made of solid plastic and are able to withstand harsh weather and moving conditions. They are sold primarily in the brick and block industry in addition to cargo.

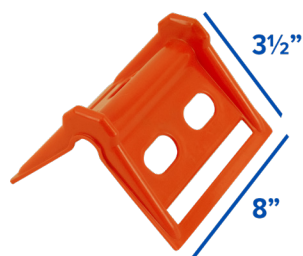

The EP-5680 series has four different heights with slots for strapping:

- **EP-5680-10** (8 x 8 x 10") – 1 slot
- **EP-5680-24** (8 x 8 x 24") – 3 slots
- **EP-5680-36** (8 x 8 x 36") – 5 slots
- **EP-5680-48** (8 x 8 x 48") – 6 slots

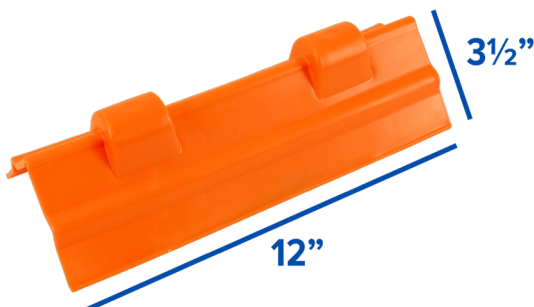

EP-5670 (3.5 x 3.5 x 8") is an oversized edge protector made with high density polyethylene with a reinforced ridge design.

EP-5675 (3.5 x 3.5 x 12") has two projecting notches designed to keep strapping in place once tensioned.

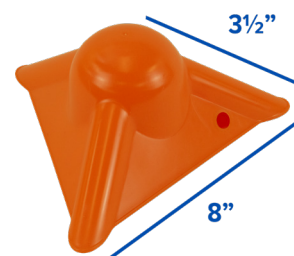

EP-5690 (3.5 x 8 x 8") Tarp Guard is designed to cover corners of packages to protect tarps from penetration and ripping, penetration and ripping.
